A body scrub will actually help to remove all the dead skin off your body and expose a supple layer of younger skin, making you feel fresh and rejuvenated. A body scrub is the best way to remove a skin tan. If your skin had become rough and has darkened due to pollution or exposure to dust, you can use a body scrub to remove the rough skin layer leaving you with a soft and supple skin. It also rids cellulites; make the skin appear dewy, contracts the pores to make the skin more slim, firm, and replenished. The massage also helps decrease stress, headaches, toxins, etc.

BODY ACUPRESSURE

COMBO MASSAGE $115

Today stress is known as one of the leading causes of pain, discomfort and disease. At King Spa & Sauna we are proud to be able to offer Acupressure massage as one more way to aid in your healing. Acupressure is a healing method that involves applying pressure to certain meridian points on the body to relieve pain. The human body has fourteen "meridians" that carry energy

throughout the body and connect back to an organ. Acupressure involves stimulating the vital-energy points along these meridians on our body to affect maximum energy flow.

Acupressure works with the body as a whole, dealing with the body, emotions, mind, and spirit as one, not as separate parts. It relaxes muscular tension, balances the vital life forces of the body, and aids in healing. Acupressure relieves tension of stress before it develops into a disease; doing away with tension in that area before the constrictions and imbalances can do further damage. King's Korean style acupressure focuses on the areas of the body that are most impacted by stress.
*It is important to drink plenty of water after your acupressure massage to aid in the removal of toxins."

CHAIR MASSAGE	20 MIN	$40
FOOT & CHAIR COMBO	60 MIN VIP	$80

Foot acupressure focuses on the points available on the feet believed to affect areas such as the lungs, heart, liver, intestines, stomach, knee, elbow, spine, and many more. Foot acupressure includes the general benefits obtained from acupressure massage therapy as well as having more targeted benefits. Foot acupressure is much more than just a comfortable foot massage to relieve foot pain. It has been effective in improving health as well as aid in healing ailments such as foot ulcers that diabetic patients suffer from, relieve the pain of cancer patients after treatment, and promote a more health circulatory system for people with hypertension.
